

Company Profile

About Ultimate: Headquartered in Weston, Florida, Ultimate Software is a leading cloud provider of people management solutions for businesses across all industries.

Since 1990, Ultimate's goal has been product excellence — the “ultimate software” for human resource and payroll professionals. The vision is simple: to deliver the most flexible, comprehensive solution for companies to strategically manage HR, payroll, benefits, and talent management. The company's exclusive focus on HCM has resulted in solutions characterized by ease of use, robust built-in functionality, superior technology, low cost of ownership, and rapid activation — with a quantifiable return on investment.

Ultimate's award-winning UltiPro solution provides a comprehensive approach to managing the employee life cycle — from recruitment through retirement. UltiPro delivers end-to-end, strategic HR, payroll, and talent management functionality, including recruitment, onboarding, payroll, benefits administration, compensation management, performance management and reviews, succession management, talent retention tools, time and attendance, workforce scheduling, rich reporting and analytical decision-making tools, plus a central Web portal that serves as the gateway for your workforce to access company-related activities. The end result is an empowered staff that can access critical information quickly and perform routine business activities more efficiently. Best of all, UltiPro helps your HR team operate on a more strategic level — and that translates into better service for your most important asset — your talented employees.

Ultimate's focus on excellence has earned the company a solid reputation and a history of long-term relationships, with a 96% customer retention rate. The company employs approximately 1,500 professionals who are committed to developing trend-setting solutions and delivering quality service. Ultimate Software has more than 2,300 customers representing diverse industries, including Adobe Systems Incorporated, The Container Store, Culligan International, Major League Baseball, Nikon Inc., Pep Boys, Revlon, and Texas Roadhouse.

Award-Winning Solution: UltiPro is an industry leader in HCM — delivering more out-of-the-box functionality than any other provider. UltiPro's end-to-end HR and talent management functionality includes recruitment, onboarding, payroll, employee and manager self-service, benefits administration, compensation management, performance management and reviews, succession management, career development, talent retention tools, time and attendance, workforce scheduling, rich reporting and analytical decision-making tools, and more.

UltiPro's Web portal can serve as your company's communications hub and the central gateway for business activities because it delivers functionality for everyone in your organization — HR and financial departments as well as executives, staff managers, and individual employees. With the UltiPro portal, your HR/payroll staff, managers, and administrators can complete daily employee administration tasks, administer benefits, manage staff, and access reporting in real-time — all from one central location. Managers and executives can access commonly requested reports and analyze workforce statistics and trends on-demand. Your employees can access pay and benefits information, get questions answered, and complete routine updates instantly. Plus, the UltiPro portal connects your entire workforce, keeping everyone in the company connected to your business initiatives, and reduces operating costs by eliminating the need to print and distribute paper communications, handbooks, forms, and paychecks. The UltiPro portal also offers features to easily extend the portal into other areas of the enterprise, making it truly the central hub for your business activities.

HR/Payroll through SaaS Ultimate Software's UltiPro solution is available through the SaaS model with a per-employee-per-month subscription. With UltiPro delivered through SaaS, organizations receive the best of both in-house and outsourced HR and payroll advantages, including complete access to critical employee data, a Web portal for managers and employees, business intelligence tools for executive decision-making, and comprehensive HR, payroll, and talent management functionality — all with no additional requirements for in-house IT support. Ultimate Software provides all the hardware and solution software, houses UltiPro at a world-class data center, and performs all upgrades and maintenance for the HCM solution.

- Recent Industry Recognition:**

Pricing and Availability: UltiPro is marketed through a direct sales team. Pricing is available on a subscription basis and varies based upon functionality requirements, number of employees, customer requirements, and services provided.

Professional Services: Successful activation in the shortest timeframe is Ultimate's goal for every customer. A major difference in Ultimate's approach is its emphasis upon expert, fast activation by its highly trained staff. Ultimate's dedicated professionals meet each customer face-to-face, determine its requirements, design and deploy UltiPro to meet its unique needs, convert its data, train staff, and provide ongoing support — all for a cost-effective price.

Customer Service: One of the key reasons customers select Ultimate Software is to experience the industry's best customer support from dedicated, long-tenured service professionals who are required to become Certified Payroll Professionals (CPPs). The company provides three-tier, SCP-certified product support, 24 hours a day, 7 days a week through a named service representative who is familiar with your business needs. In addition, Ultimate delivers a variety of support services via its Support Web site, including a News Page, Frequently Asked Questions, a newswire service, and the ability to make product enhancement requests.
